Li, Yun  
A CORRELATIONAL STUDY: THE RELATIONSHIP BETWEEN LEARNER SATISFACTION AND ACADEMIC PERFORMANCE IN TEAM-BASED LEARNING CLASSROOM

iPosters is the virtual platform we are using to highlight our poster and showcase presenters. With iPosters, our presenters have created interactive displays sharing their research and practice. To view the iPoster galleries, click the link in All Academic to go to one of the gallery home pages (Poster Sessions, D&D Showcase, or Emerging Technologies Showcase). From there you will see the different session just like our in-person gallery walk. Click a thumbnail image to explore the poster and learn more about what our colleagues are doing. You will have an opportunity to contact the present to learn more about their content if you have questions. iPosters will be available throughout the duration of the convention so pop on over and check it out any time you want.
